PACE Audit

Areas of Focus: STAFF DEVELOPMENT:SD-070, SD-090 and SD-100 Train all staff in the areas of MI/SOA-R/Staff Impact and Progression Matrix

<p>Fidelity Specialist and Case Manager Supervisor to measure staff progress via observation and auditing of case plans.</p>	<p>In August, the Case Management Supervisor reviewed twenty-six files. Twenty-two were brand new resident files, and four of them were re-reviews. Coaching has taken place with the case manager that continues to struggle on the files. In July, the Case Management Supervisor reviewed twenty-nine files. Several files had repeats from previous reviews. Those Case Managers were addressed through performance management. Two more Case Managers were hired in June. They have been shadowing other Case Managers and will have SOA-R training in August. All of the Case Managers are working together to ensure their case plans for the residents are meaningful and have buy-in from the residents. Ten case files were reviewed and any issues were addressed. Monitoring continues for the newer case managers' files. The Case Management Supervisor is still finding the similar concerns as in the past. The Case Management Supervisor is spending more time with a newer case manager to ensure he is grasping his job duties. She continues to conduct spot audits on case files and meets individually with each case manager if she observes the same issues being repeated. CAE had three new Case Managers start in March. We took the opportunity for them to observe other Case Managers and see the importance of building rapport and using the tools they are given with the residents. SOA-R and Progression Matrix has been scheduled for them. The Case Management Supervisor had the opportunity to review the newest Case Manager files. Notes for corrections have been given, and a follow-up in March is scheduled. Case Managers are sharing their case plans with other co-workers to review and receive feedback. These were completed and notes were given to the case managers for corrections. Weekly meetings are being conducted with case management staff with case plan coaching as a reoccurring topic. Case Management training was conducted on a monthly employment chrons and the importance of proper and timely entry. Two new Case Managers completed SOA-R and Progression Matrix training.</p>

Skill Development with Directed Practice: Staff to demonstrate milieu management for effective role modeling and responsivity.

<p>Fidelity Specialist and Case Manager Supervisor to measure staff progress via observation and auditing of case plans.</p>	<p>During management rounds, both Security and Case management staff were observed having meaningful contacts with the resident population. Staff were engaged in conversations that were both empowering and meaningful.</p>

CORE Security Audit

<p>Search and Contraband Training for staff: Scheduled and Completed Training *CS-30 Contraband</p>	<p>Discussion has started in regards to a secure box that only supervisors will have access too, that we can secure any drugs that are found during a facility search or pat search. Additional rounds are being made throughout the facility. Staff are communicating with each other when they are conducting bunk searches on items they are finding. This allows staff to be more aware when they are conducting the next search or searching a resident's proerty when they come into the facility. Additional search and contraband training has been conducted. The most recent contraband item list was disseminated to staff to ensure they are aware of the items. Staff were designated to conduct most of the bunk searches. Contraband has been found, some drug paraphernalia and a small amount of drugs. One female resident was arrested by CSPD. We have been able to designate several security staff to focus on locker searches and facility searches. Senior Security staff are taking the newer staff with them when conducting room/bunk searches, to show them what to look for, and how to leave items. Security staff had found many of items for the month of February. Search and contraband training was scheduled for 12/20/21, 01/03/22 and 01/06/22. Policies and procedures are in place; the focus for training and evaluation will be on the process and documenting appropriately.</p>

<p>*CS Substance Use Monitoring Drug Interdiction Events and Outcomes: Security Manager and Fidelity Specialist observations, audits, findings and actions taken.</p>	<p>On August 15th, a K9 searched the facility common areas and all living areas. The K9 alerted on a few bunks which were searched. Nothing was found. On July 29th, a K9 searched facility common areas and the female resident rooms. The K9 alerted on two female resident rooms which were searched. Only nuisance contraband was found. All of the females in those rooms were also drug tested. During bunk searches and common area searches, some drug paraphernalia was founded. Residents are required to submit to drug testing if the drug paraphernalia was found in their property. In May, CAE had a K9 search in the facility No drugs were found, UA's were increased on bunks that were alerted. The Fidelity Specialist conducted spot checks on 20 files. Of those 20 files, three were corrected and staff were provided additional direction. We continue to have discussion with residents to ensure that they are getting something out of their treatment. We are ensuring that resident's treatment is increase upon their first positive UA. We have discussions with them as to what is occurring in their lives and what is needed to stop drug use. We spoke with our UA provider to get fentanyl on our UA panel. Three residents tested positive for fentanyl once this change was made. An audit was conducted of the UA's, and numbers need to be adjusted for many of the new residents that came into the program. On January 14, 2022, a K9 Search was conducted because of three recent overdoses in Serenity and Tranquility bays. The K9 only searched those areas from where the overdoses had occurred. On January 25, 2022, the SM and FS conducted a spot audit and actively observed 20 resident. Of the 20 files reveiwed, 2 were found incomplete with information and were corrected and staff were given additional direction. Observation of substance testing was accurate and based on individual LSI consistent with the standard.</p>
<p>*CS Client Monitoring : Random off-site monitoring of job search, work, pass and furlough activity CS* 50 Recording Authorized Absences *Client Supervision - CS Facility Checks</p>	<p>A location app is being placed on resident phones and process has been established in policy regarding the use of the app. This will reduce staff time when checking for resident locations. In July, Security Staff have a template that captures all of the information needed when conducting whereabouts. A location app has been researched and the facility is in process of obtaining approval and implementation. They have also been instructed to notify the shift supervisor immediately if a resident is off location. Training is ongoing, and security staff have a designated area for completing work whereabouts utilizing facility phones. Case Management staff are using team approach to complete random off-site visits for verification.</p>
<p>Fidelity Specialist and Case Manager Supervisor observations, audits, and actions taken.</p>

Impulse Control (STEP 1)

One of the Biggest thing that I have learned is that, I never want to do this again. I am tired of doing this I fought the law and the law won. And Comcor has given me tool that I was lacking to make it in the Community. I have become a responsible person that takes care of the things that I need to do. I go to work everyday I am around people that help me thrive in life. I'm at the point in my life where I can start ^{helping} the people that need me. With out comcor I would still be out there doing Bad and not helping my family. And I have learned how to get up every morning and face the Day with perseverance and a unmovung want to do better. Thankyou for saving my life and showing me my future.
