1. **Pat Kelly, Chair, called the meeting to order at 12:15 p.m.** The Board meeting was held with Board members attending either virtually or in-person.
 - a. **Study Session**: Colorado State Board of Parole – Mr. Chad Dilworth, Vice-Chair of the Colorado State Board of Parole (CSBP), presented an overview of the Parole Board’s procedures. He discussed standards and guidelines for assessment, evaluation, treatment, and behavioral monitoring of Colorado’s parolees. The CSPB manages parolees to reduce recidivism. Mr. Dilworth stated that community corrections provide some stability between the transition from Prison to Parole. Mr. Dilworth stated that Parole is looking to improve the process for notification. Angel Medina stated that a letter from Parole when they make a recommendation would be helpful. Mr. Dilworth stated that Parole appreciates the specialized programming that is available through vendors to include Intensive Residential Treatment (IRT), Residential Dual Diagnosis Treatment (RDDT), and Sex Offender Treatment (CRP).
2. **Attendance**: The Board Chair called roll. Future excused absences were requested by Pat Kelly for March 15, 2022.
3. **Case Review - VRA Statements**: Registered victims in proposed client cases (Joseph Nickerson, Robert Allen, and Simone Moore) addressed the board.
4. **Case Review: Discussion and Balloting**: Chair Pat Kelly called for a case discussion regarding Mr. Robert Allen. Lori Griffith clarified the plea agreement for Mr. Robert Allen. Mr. Allen’s plea agreement was not completely stated, and Mr. Allen wanted an appeal and the PSI indicated it was a stipulated probation sentence that he is receiving and an added count that is a child abuse case which the defendant is looking at an open sentence which would include DOC community corrections or probation and that is why community correction screen was requested. The child abuse is a two to eight years DOC sentence open to probation and community correction, if the court sentences to DOC for the child abuse count, Mr. Allen would receive the DOC sentence and he would receive supervised probation once on parole for the child abuse. Balloting was opened.

He stated they referred 140 criteria cases. Mr. Wester reported CCI collected \$6,438.69 in child support and \$5,054.83 in restitution. The total assessed in restitution across all the clients in CCI is in excess of three million dollars that is owed. Mr. Wester stated that CCI had 36 admissions of which 16 were Diversion, six Transition, three Condition of Parole (COP), six Condition of Probation (COPr), and five transitions to non-residential status. He stated that they had 11 IRT; one RDDT; and three CRP admissions. Terminations for January were a total of 46 which includes about 48.6% successful completion of a total of 17, two clients that changed status 5.7 % which means the client for example transferred to IRT or was a reject after accept (RAA), about 45.7% negative termination; 12 escapes 34.4%; 2 house/technical violations; and 2 committed new crimes. Mr. Wester stated that there are 10 open positions - three in each security in case management and four in treatment staff and they continue to be aggressive in recruitment efforts. He stated CCI has implemented a pay increase for majority of the staff in January. Mr. Wester stated the employment rate is 76%, which is up 1% from last month; the regression rate is 5.7% roughly half from last month; the positive UAs rate is 7.8%. CCI has provided 7 Habits of Highly Effective People/7 Habits on the Inside Instructor Training for case management to enhance key principles of effectiveness within their field. The training also certified case management as instructors for 7 Habits, which would assist clients to effectively instill habits that provide pro-social change. CCI has implemented a night class based on client requests. Mr. Wester discussed the Pace Audit regarding Building 3950 renovation – began to empty several rooms at the back of the facility to begin cleaning and repairs. He discussed the Core Audit, in which he states they have contracted with a new urinalysis testing company to have the capacity to test for a wide range of commonly abused drugs such as fentanyl and prescription medications such as gabapentin. Mr. Wester mentioned that they are implementing 3, 10-hour shifts for technical staff with 2-hour overlaps to allow for more pro-social engagement and better detect incidents that may have occurred in the facilities.

were a total successful: nine Diversion; five Non-Residential going out; nine Transition; four Non-Residential; negative terminations: seven Diversion; eight Transition; eight escapes. Mrs. Gwen stated for the escapes the trend they saw was substance abuse issues; increase pat searches; locker searches; room searches and finding substances on clients and rather the clients waiting for Colorado Springs Police Department (CSPD) to process the clients take off running. Mrs. Barlow stated for January CAE experienced a major outbreak of COVID-19 with clients and staff. There were 15 Diversion clients and 28 Transition clients that tested positive. CAE worked collaboratively with local and state health departments for testing and any additional assistance that CAE needs. CAE is doing weekly testing and just performed COVID testing on Monday and waiting on results. Due to COVID, there has been an increase in drug use and overdose during the lockdown. There were four overdoses in January. Mrs. Barlow applauds her staff on their quick responds by CPR and Narcan before AMR and fire arrives to assist them. For the increase of drugs and overdoses at the facility, CAE brought in a K9 vendor to target specific areas where the clients are housed and to eliminate the drug use. She stated that CAE would be working with the K9 vendor to make the dog search a regular monthly operation. Currently, there is one scheduled for this month. CAE is collaborating with the K9 vendor to increase the dog search to twice to three times a month. She stated that case managers have evaluated and assessed the clients to see if the clients are receiving appropriate treatment. PACE Audit

1. Strategy: Enhance case management ranks and training to improve client skill training and outcomes. SKILL TRAIN - FACTOR 4	
STAFF DEVELOPMENT:	<ul style="list-style-type: none"> • Redeveloped new hire training to include more hands on training with the opportunity to practice the skills learned prior to being released to a facility. Facility managers are taking a greater role in new hire training as well. We are providing a full week of training and a shadowing period for consistent performance. • Provided 7 Habits of Highly Effective People/7 Habits on the Inside Instructor Training for case management to enhance key principles of effectiveness within their field. This training also certified case management as instructors for 7 Habits on the inside, which will assist clients to effectively instill habits that provide pro-social change. After positive comments and client meetings, we have also implemented a night class based on client requests.
2. Strategy: Review and enhance level system with measurable and objective components to increase transparency and consistency of client reinforcement and progression. (Developing and utilizing a level system (5-1) with measurable components creates transparency and consistency in client movement and reinforcement through earned privileges)	
PROGRAM DEVELOPMENT:	<ul style="list-style-type: none"> • We have continued to refine our Program Matrix process to maintain a high level of transparency and fidelity to the model created by DCJ. • We have included new policy reviews that include clients, allowing ComCor to have more transparency with clients and explain DCJ standards behind decision making. • Awareness posters on lethal doses of fentanyl have been placed inside of the facilities • Narcan is being placed throughout the facilities, along with client education on signs of overdose to increase probability of overdose intervention.
3950 RENOVATION:	We have begun to empty several rooms at the back of the facility to begin cleaning and repairs. We have designated our empty space at 3820 N. Nevada to serve as a workout room for all clients, eliminating the need to have weight equipment at the 3950 facility. Comcor has reviewed scope and architectural drawings with our architect. We have defined a revised scope of approximately \$1M in improvements planned over the next year.

CORE Security Audit

CS-010: Random Headcounts & Facility Walkthroughs	Security staff are conducting 6 headcounts on each shift to exceed the DCJ standard requirement of 4 checks during each shift. This includes a shadowing phase for new hires to learn proper techniques for performing these functions, creating consistency amongst staff
CS-042: Job Search	We continue to work with our vocational case manager, who assists clients with resume's, interview guidance and open positions. She continues to create and maintain relationships with local businesses, who hire our clients.
CS-060: Substance Testing Process	<ul style="list-style-type: none"> • We have contracted with a urinalysis testing company to have the capacity to test for a wide range of commonly abuse drugs such as fentanyl and prescription medications such as gabapentin. This allows us to perform nearly 1600 UA's accurately a month • Fentanyl test strips are being implemented as an evidence-based harm reduction strategy (This is not to condone drug use, as UA's will still catch drug use, it's to show ComCor holds safety as a top priority.) • We are looking researching implementation of ocular scanning for drug detection.
OMA-020: Milieu Management	• We have implemented 3, 10-hour shifts for technical staff with 2-hour overlaps to allow for more pro-social engagement and to better detect incidents that may have occurred in the facilities. This also allows for more overseen client behavior and recreation.
